Paste prices: Tomato News broadens its scope

Since May 1986, information concerning the prices of pastes on the export market has been made available every month in the pages of the magazine, and since July 2017, a section dedicated to these prices has been featured on our website www.tomatonews.com.

Packaging: Plastcorp, extrusion at a human scale

In September 2002, the Pechiney Plastic Packaging division created the company called Pechiney Bouteilles Plastiques and set up a factory in the South of France, near Orange, in response to the needs of a big tomato processor and sauces manufacturer located in the area (Le Cabanon).
