

Young Mind Award: Jose Maria Vadillo

José María Vadillo Hurtado won the ISHS Young Minds Award for the best oral presentation at the XVI International Symposium on Processing Tomato, which was held virtually in Argentina in March 2022. His paper was entitled: "Development of a methodology to characterize the nitrogen nutritional status of open field processing tomato by means of fast indicators".

What is happening? What can we expect?

"Those who failed to learn from history are doomed to repeat it"

From the presentation given by Martin Stilwell, during the 14th World Processing Tomato Congress (March 2022, held online from San Juan, Argentina).
